GERVAIS**

"I am impressed with the caliber of the submissions for this competition and we believe that Bioproducts, Energy and Environmental Technology Companies are a very promising area for investment."

John Richardson, Chief Executive Officer, President and a founder,
B.E.S.T. Funds (Competition Juror)

Tersano Inc. (St. Catharines, Ontario)

www.tersano.com

Tersano Inc. is an innovative developer of cutting-edge countertop systems that sanitize drinking water, food and household surfaces. Our product provides proven, patented and powerful chemical-free sanitization from ordinary tap water. The Lotus[®] sanitizing systems are changing the way we think about cleaning chemicals and, in the process, creating an entirely new market category that improves quality of life and delivers peace of mind by providing consumers with the tools to reduce, if not eliminate, the need for toxic chemicals in their homes.

Our mission is to utilize progressive ozone technology, through our patented Oxyshield™ process, to provide people worldwide with progressive product solutions supported by exemplary consumer care, which improves quality of life and delivers peace of mind, in an environmentally sustainable manner. Our goal is to provide products that enable consumers to protect themselves and their families from chemicals, harmful toxins, germs and bacteria, while at the same time, solving daily household nuisances.

This is an opportunity to get in on the ground-floor and invest in a TIME Magazine Best Invention 2006 winner, and more recently in the winner of the St. Catharines-Thorold Chamber of Commerce Innovation and Technology Award for 2007.
